Reinforcement Class Activities

AFTER THE ASLDEAFINED LESSON

1. Have students write **3–5 sentences** after a lesson and have them sign back to a partner.
2. Have students sign the Outdoor Activities words to their partner, and the partner gives it back in **fingerspelling**.
3. Locate the **"Handshape and Location"** sheet in the Drop Box and make copies for each student. Have students identify either the handshape or the location of each sign listed in Outdoor Activities.

HOMEWORK

Have students pick **three** Outdoor Activities they like to do, or would like to do, and sign them in a video.

Remind students: time is not important. The quality of the signing and their best effort is what counts. Submit via classroom procedures.
