

# Yes / No Questions

## What are yes/no questions?

Questions where the answer has to be yes or no.

The same is true for **true/false questions**, where the answer has to be true or false. Everything on this page works for both.

**Do you own a pet dog?**

Yes! Its name is Max.

**Is it true you want to be an interpreter one day?**

It is true!

## What do you do?

**1**

**Raise your eyebrows**  
and widen your eyes

**2**

**Lean your head forward**  
toward the person you are asking

**3**

**Hold the last sign**  
in your sentence

*All three happen at the same time, and they run across the whole question — not just the last sign.*

## Practice sentences

Do you like apples?

**APPLE YOU LIKE?**

Do you like to run?

**RUN YOU ENJOY?**

Do you want to go to college?

**FUTURE COLLEGE ATTEND YOU WANT?**

### Your turn

Write three yes/no questions of your own in gloss, then sign them to a partner with the right eyebrows. See if they can tell it was a question before you finish.
