

Food practice

THE SHORT VERSION

Turn the classroom into a restaurant. One student waits tables, four order, and nobody uses their voice. Print the menu and the order slips on the following pages.

SETTING

Be as creative as you would like when making your restaurant. I pushed desks or tables together, printed menus, and put some cute flowers in the middle. If I had the time I would have gotten tablecloths for fun.

THE ASSIGNMENT

The entire time students can only use ASL. No talking! One student will be the waiter and four will be customers.

The waiter will request orders, customers sign what they would like, and when the waiter has it all recorded he brings the teacher the order form. Teacher signs a question about one of the orders and when done the waiter returns to the table and picks a new waiter until everyone has held the role.

GRADING

60% Participation — turning in the completed order.

30% Answering the teacher's question about an order.

10% Keeping voices off.

Sweet Signs

TO DRINK

Orange Juice

Pop (Coke, Diet, Mountain Dew)

Apple Juice

Fruit Juice

Milk

Tea

Water

Iced Tea
