Circle the best match Criterion	1 point Below target	2 points Developing	3 points Approaching target	4 points Target	Out of 4 Points
Accuracy - Signs are easily understood - Signs are accurate throughout	① Signs are frequently unclear, and the message does not come across.	② Signs are understood with effort about half the time. Errors change the meaning.	③ Signs are clear and accurate about 80% of the time. Remaining errors are minor.	④ Signs are clear, accurate, and easily understood throughout the production.	_____
Signed parameters - Utilizes proper signed parameters - Appropriate facial expression - Body language and non-manual markers	① Minimal control of the parameters. Facial expression, body language, and NMM are absent.	② Parameters are accurate about half the time. NMM appear only for emphasis.	③ Parameters and NMM are accurate about 80% of the time. Some grammatical markers are missing.	④ Consistent command of all five parameters, with appropriate facial expression, body language, and NMM throughout.	_____
Prosody and fluency - Inflection and use of space - Dynamic equivalency - Little to no hesitation or pausing	① Little use of inflection, space, or dynamic equivalency. Many hesitations interrupt the production.	② Linguistic features appear about half the time. Hesitations and pauses make pacing uneven.	③ Linguistic features are present about 80% of the time, with a few hesitations.	④ Inflection, use of space, and dynamic equivalency are clear, with little to no hesitation.	_____

How the four levels work

1 Below target

The signer does not achieve the objective.

2 Developing

The signer somewhat meets the objective.

3 Approaching target

The signer mostly satisfies the objective.

4 Target

The signer meets or exceeds expectations.

Circle the best match Criterion	1 point Below target	2 points Developing	3 points Approaching target	4 points Target	Out of 4 Points
Vocabulary and ASL concepts - Relevant vocabulary throughout - Competent usage of ASL concepts	① Limited vocabulary and English-based signing. Concepts are not conveyed in ASL.	② Basic vocabulary. Concepts are signed in ASL about half the production.	③ Relevant, specific vocabulary. Mostly ASL, with a few English-based choices.	④ Precise, varied vocabulary and consistently accurate ASL concepts throughout.	_____
Fingerspelling and numbers - Clear, at a readable pace - Accurate replication of ASL numbers	① Frequent errors. Fingerspelling and numbers are difficult to read.	② About half is unclear. Pace or handshapes obscure the words and numbers.	③ Accurate and clear about 80% of the time, with a few errors.	④ Clear handshapes at a readable pace throughout, with accurate ASL numbers.	_____
Classifiers - Accurate use throughout the production - Establishes referents and nouns efficiently	① Classifiers are not used.	② Classifiers are attempted, but handshape or placement does not carry the meaning.	③ Classifiers are used, but referents are not always clearly established or maintained.	④ Accurate classifiers throughout, establishing referents and nouns efficiently.	_____
Total score	22–24 at target · 18–21 approaching target · 13–17 developing · 12 or below				/ 24
