

ASLdeafined Classifier Scene Prompts for ASL Classes

These prompts help students practice using classifiers to describe movement, location, and actions in American Sign Language. Students should focus on selecting the correct classifier and clearly showing movement and spatial relationships.

People and Movement

- | |
|---|
| 1. A person walking down a hallway |
| 2. Two people walking toward each other |
| 3. A person sitting in a chair |
| 4. A person running across a field |
